About

Music, sport events has the power to bring people together, to escape the unfortunate realities and challenges found in their respective communities, and households the Gert Schalkwyk Foundation is focusing on the sport in general and hoping to pave the way to successful sporting careers and saving our youth from the evils surrounding our brothers and sisters in the townships and suburbs.

We encourage our young people to be educated and pursue their sporting careers at the same time and with businesses being part of the movement, every event will expose them to more career paths and interests in life. With enough support from Gert Schalkwyk Foundation and yourself we can reach out to the individuals taking part in the events and motivate them through sponsorships that allow higher education and degree, the sporting arena is huge and have so many moving parts aside from playing, assistance is crucial in our townships and suburbs.

The foundation was launched with a successful Easter weekend soccer tournament from 15th to 18th April 2022 and we had a lot of support from local businesses, community, outside companies, government and PSL Kaizer Chiefs football club supporting the movement. We hope to encourage more companies and individuals to join us.

Development Program

Gert Schalkwyk Foundation is bringing back the sport's culture by designing and implementing sports programs for the youth with academic and social standards that will develop them into well-rounded members of our community and also sports professionals that are much needed by South Africa.

Our target is the unemployed youth, primary and secondary schools in need of professional coaching and training sessions and get them all registered in our seasonal leagues and development program that will include sporting code of Soccer at the moment and Hockey at a later stage. All individuals will attend training during the week and have match days on weekends with occasional week days.

We are hosting tournaments throughout the year that schools and individual teams compete in, we're planning to host the Easter Tournament, Ladies Tournament, Junior Tournament, Masters Tournament and the School League every year, each year better then previous year.

We aim to bring back the culture of our young people competing in sports, giving their best performances on and off the field, at the same time shifting the focus of day to day habits into training to be the best and not focus on the negative that's surrounding them daily.

We are thriving to become the best in the industry with

We as Gert Schalkwyk Foundation are working towards becoming the number one name for sports development and event hosting in the North West by engaging in tournaments, leagues and exposing our local talent. We are approaching all interested business owners and individuals to promote and support the movement in order to give the athletes the best possible experience.

As with all athletes starting on a junior level, they have big dreams about playing professional and working hard towards it, but unfortunately not everyone makes it as a professional. Some find other interests along the way; some received the bad hand of life and some just never got the correct exposure and/or guidance. We are focusing on correct exposure and guidance from experienced professionals allowing full potential of the players.

The Gert Schalkwyk Foundation hope to reach as much as possible youngsters in school, college and guide the academic performance alongside sporting career.
